

General Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
unlimited # of chart (plotting) areas				
unlimited # of series				
unlimited # of data points in series				
Animated Charts (Flash and SVG) (new in Version 4.0)				
Annotation Objects (new)				
Automatic chart elements layout management				
Chart Area Auto Alignment				
Chart and Data Wizard™				
Chart Serialization				
Drill down and Selection				
Element Selection *				
Multiple Image Formats (jpg, png, bmp, emf)				
Multiple Legends				
Multiple Title Items				
Printing Support				
Real-time Charting *				
Cursors and Range Selection*				
Scrolling/Zooming				
Smart Data Labels				
Template Support (new in Version 4.0)				
View State Management				
Samples Framework with over 150 VB and C# Samples				
* With Smart Client Functionality				

New Features

Feature Name (New Features for Version 4.1)	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise

Annotation Objects				
Animation Frame Rate Control				
Extended Data Binding				
Optimized Smart Client Security Requirements				
New samples (VB and C#)				

Chart Types

Feature Name		ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
Bar	3D Bar				
Column	3D Column				
Point	3D Point				
Line	3D Line				
StepLine	3D StepLine				
Spline	3D Spline				
Bubble	3D Bubble				
Area	3D Area				
SplineArea	3D SplineArea				
Pie	3D Pie				
Doughnut	3D Doughnut				
Stock					
Candlestick					
Range Column Chart	3D Range Column Chart				
Radar Chart	3D Radar Chart				
Stacked Bar	3D Stacked Bar				
Stacked Column	3D Stacked Column				
Stacked Area	3D Stacked Area				
100% Stacked Column	3D 100% Stacked Column				
100% Stacked Bar	3D 100% Stacked Bar				

100%	3D 100%				
Stacked Area	3D Stacked Area				
Range	3D Range				
Spline Range	3D Spline Range				
Gantt	3D Gantt				
Combinational Charts	3D Combinational Charts				
2D Cylinder drawing style	3D Cylinder drawing style				
Box Charts					
Error Bar Charts	3D Error Bar Charts				
Kagi Chart Type (new)					
Point and Figure Chart Type (new)					
Renko Chart Type (new)					
Three Line Break Chart Type (new)					
* With Smart Client Functionality					

Visual Appearance

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
3D Perspective Customization				
3D Simplistic and Realistic Lighting Effects				
3D Point Depth (0-1000%)				
3D Point Gap Depth (0-1000%)				
3D X-Angle Rotation (new)				
3D Y-Angle Rotation (new)				
3D Wall Width Customization				
3D Border Skins				
Antialiasing (Text and graphics are now				

Alpha Blending				
Background Drawing				
Solid Colors				
Gradients				
Hatching				
Transparencies				
Scaled and Tiled Images				
Custom Markers				
Custom Templates (new)				
Isometric Projection (Right Angle Axes)				
Markers of different shapes and sizes				
New Star Marker Styles (new in Version 3.6)				
Predefined Color Palettes				
Post Paint and Pre Paint Events				
Soft Shadows				

Legend Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
Multiple Legends				
Customizations				
Different styles				
Docking and Alignment				
Drill down				
Equally spaced Legend Items				
Text auto sizing				
Tooltips				

Data Population Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
Data Binding				

Extended Data Binding (new)				
Annotation Objects (new)				
Missing points support				
Empty points support				
Flexible and Comprehensive API				
Multiple Y values per point				
Population using Data Views				
Population using Data Readers				
Population using XML				
Population using Collections				
Population using Arrays				
Population using the IEnumerable interface				
Populating at Design Time				
Populating using Chart and Data Wizard ^(TM)				

Data Manipulation Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
Empty Data Point Support				
Exporting points data				
Financial Markers Support				
Filtering Data Points				
Finding Points by value				
Financial Formulas				
Generic				
Price Indicators				
Volume indicators				
Oscillators				
General Technical Indicators				
Time Series and Forecasting				
Grouping Data Points				
Series values moving, merging and splitting.				

Sorting				
Statistical analysis formula support				

Date/Time Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
Auto and custom date-time intervals for labels, tick marks, grid lines and other elements				
Date and Time Axis Scales				
Date-time designer support (Dates are edited as dates not as "magic" numbers)				
Date-time labels formatting				
Missing points support				
Empty points support				
Grouping				

Internet Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
Animated Charts (Flash and SVG) (new in Version 4.0)				
Binary streaming				
Flash Rendering (new in Version 4.0)				
Image Maps				
Multiple Image Formats (jpg, png, bmp, emf,)				
SVG Support				
Smart Client Control				

Axis Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
--------------	----------------------	--------------------	----------------------------	--------------------------

Arrows				
Automatic and "manual" scaling				
Automatically fitted font for all axes labels				
Cursors and Range Selection				
Custom Tick Marks and Grid Lines				
Flexible Major and Minor tick marks				
Flexible Major and Minor grid lines				
Interval properties for the axes				
Labels				
Auto sizing and positioning				
Custom angle, font and color				
Step Labels				
Multiple rows of labels				
Multiline labels				
Formatting				
Customization				
Logarithmic				
Axis Grouping Labels (new in Version 3.6)				
Logarithmic Axis of any base (new in Version 3.6)				
Improved Logarithmic support for Grid Lines and Tick Marks (new in Version 3.6)				
Primary and Secondary X and Y axis				
Reversed				
Scrolling, Zooming and Data Views				
Strips and Lines				
Interlaced strip lines				
Titles				

Customization Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
Custom Drawing				

Custom labels events				
Custom legend items events				
Custom image map items events				
Data View and Range Selection Events				

Chart Area Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
Unlimited number of chart areas				
Automatic areas layout management				
Custom position				
Auto alignment				
Transparency				
Visual appearance				

Chart Title Features

Feature Name	ASP.NET Professional	ASP.NET Enterprise	Windows Forms Professional	Windows Forms Enterprise
Docking and alignment				
Custom positioning				
Text styles				
Appearance				
Redirection				
Tooltips
